

AM-60EV EURO VALUE COUNTER

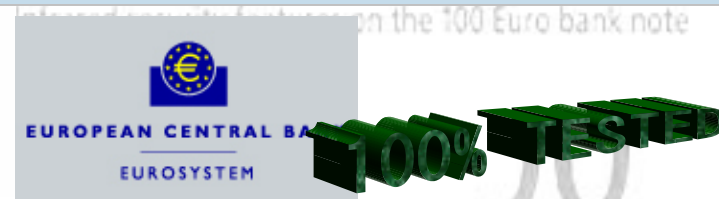

AMROTEC® AM-60EV EURO Value Counter

counts mixed denomination of EURO banknotes as well as Sort them while keeping running total. It can display the total value and all denomination piece count on the bright LCD display.

AM-60EV Euro counter equipped with unique and advanced metal thread (MT) technology to decode Euro banknotes metal thread code and denominates for value counting purposes.

Using sophisticated UV and IR detection, AM-60EV Euro Counter checks the paper quality for counterfeits. An RS232 interface also provided as standard to connect an external display or PC for upgrade.

Easy to use AM-60EV Euro Counter is an unbeatable choice to process mixed Euro currencies at Bank's teller and Retailers.
